

# BOOTS EXCHANGE

Playing sport brings enjoyment to so many, but for some the costs of equipment can be stressful.

Boots Exchange can help parents cope when your children grow out of their boots earlier than you expect. It might happen at the beginning of the season or midway through, either way we have you covered.

Do you have any football boots which no longer fit your child? Would you like to swap them for some boots that fit? If you need the next size up, swap your old boots for some new ones, or if you don't have any yet, grab yourself some preloved boots for \$10, or talk to us and we can loan you a pair for the season.

With all donated boots, we clean them and - where needed - add new laces, giving them a second life. All boots have been in quarantine for more than 4 weeks. They have also been treated with disinfectant.

Boots Exchange will be running this Saturday with the Junior Sausage Sizzle and for the first half of the season. We have 140 top branded boots to swap or sell. We should be able to put a smile on your kids' faces with Jnr Sizes 10, 11, 12, Youth Sizes, 1-7 and a few large sizes for the dads and mums having a go.
